HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from October 10 through October 13, 2019. A total of 625 registered Kentucky voters were interviewed statewide by telephone. All indicated they were likely to vote in the 2019 statewide general election.

Those interviewed were randomly selected from a phone-matched Kentucky voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect voter turn-out by county.

The margin for error, according to standards customarily used by statisticians, is no more than ±4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or party grouping.
QUESTION: Do you support or oppose a federal tax credit proposal in Congress where individuals and businesses could donate to non-profit scholarship granting organizations in the states that would provide scholarships for students to attend the public, private or career and technical schools of their choice?
