LETTER FROM THE PRESIDENT

Dear Friends,

The year 2020 has been like no other year in our lifetimes and it has been an unprecedented year for school choice.

The COVID-19 pandemic has spurred parents of all socioeconomic backgrounds to take stock of what's happening in their kids' K-12 education and, in many cases, look for educational options outside of their zoned public schools. In addition, as racial strife has once again manifested itself in sad and unfortunate ways across America, it has reinforced AFC Growth Fund's belief that equity in education is essential to every child being able to realize his or her full potential.

Unfortunately, many parents have found that their schooling options are limited or even nonexistent – the zoned school down the street is the only choice offered to them, whether or not this option works for their kids.

The ways in which state leaders have responded to this education crisis have been varied. We've been happy to see governors in states like South Carolina and New Hampshire use federal Governor's Emergency Education Relief (GEER) funding to ensure that families have immediate access to private school choice options. And other states, like Florida and Oklahoma, have allocated millions of dollars to stabilize both public and private schools by providing educational funding for students from low-income families.

On the national level, U.S. Secretary of Education Betsy DeVos's Education Freedom Scholarships proposal was introduced in the House and Senate, garnering more than 120 cosponsors. The Senate has also responded to the pandemic's disruption of K-12 education by including school choice legislation and additional GEER funding for governors in its second COVID-19 relief bill. It remains to be seen whether this bill will be enacted.

Finally, we were thrilled by the U.S. Supreme Court decision in *Espinoza v. Montana Department of Revenue*, which stated that Montana cannot exclude religious schools from programs that provide scholarships to students attending private schools, making way for the growth of that and other choice programs across the country. Maine, New Hampshire, and Vermont, for example, are three states we hope will grow their voucher programs in response to *Espinoza*.

Because of the considerable challenges now facing American families, AFC Growth Fund is more committed than ever before to advocating for high-quality, innovative school choice options for families and students.

Sincerely,

John Schilling
President

EDUCATIONAL CHOICE TODAY

TYPES OF SCHOOL CHOICE PROGRAMS

TAX CREDIT SCHOLARSHIPS

Tax credit scholarship programs give families greater access to high-quality private schools by providing incentives for businesses and individuals to get involved in education reform. In these programs, companies and individuals receive tax credits for donating to nonprofit organizations that provide scholarships to students.

EDUCATION SAVINGS ACCOUNTS

Education savings account programs give parents the power to use their children's state education dollars on a variety of educational options, including tuition and fees, textbooks, and tutoring. In these programs, families receive funds in an account available for approved education expenses and are able to choose the best education for their children from multiple providers.

INDIVIDUAL TUITION TAX CREDITS

Individual state income tax credits of significant size can be used for a child's educational expenses, including private school tuition, and help families choose educational tools they otherwise could not afford.

SCHOOL VOUCHERS

Voucher programs give children (usually children from low-income families, children in failing schools or children with special needs) greater access to high-quality private schools. In voucher programs, parents select private schools and receive state-funded scholarships to pay tuition.

HOMESCHOOLING

Homeschooling has long been an educational option for families across the country. With the growth of online education and full curriculum available to parents, homeschooling allows parents the option of tailoring their children's education at home.

COURSE CHOICE

Course choice, also known as course access, allows K-12 students to enroll in individual course options, from both public and private providers, using state funds. Many of these courses are online, but some are offered in traditional or blended learning formats.

CHARTER SCHOOLS

Charter schools are independently operated public schools that have the freedom to design classrooms that meet their students' needs. All charter schools operate under a contract with a charter school authorizer that holds them accountable to the standards outlined in their "charters."

VIRTUAL SCHOOLS

Virtual education allows students to take one or all school courses online, allowing for more flexibility and options in education.

OPEN ENROLLMENT

Open enrollment policies allow students to attend public schools outside of a student's assigned school district.

MAGNET SCHOOLS

Magnet schools are public schools that offer specific education programs, often emphasizing academic subjects, such as math, science and technology, or using specific instructional approaches.

These colors define the three basic types of private school choice programs throughout this Guidebook

EDUCATIONAL CHOICE TODAY

SCHOOL CHOICE POLLING

Generally speaking, would you say you support or oppose the concept of **school choice**? School choice gives parents the right to use the tax dollars designated for their child's education to send their child to the public or private school which best serves their needs.

TOTAL SUPPORT
69%

On average, American taxpayers spend **\$15,424 per student** nationwide on K-12 public education. Would you support or oppose giving parents a portion of those funds to use for home, virtual, or private education if public schools do not reopen for in-person classes?

TOTAL SUPPORT
73%

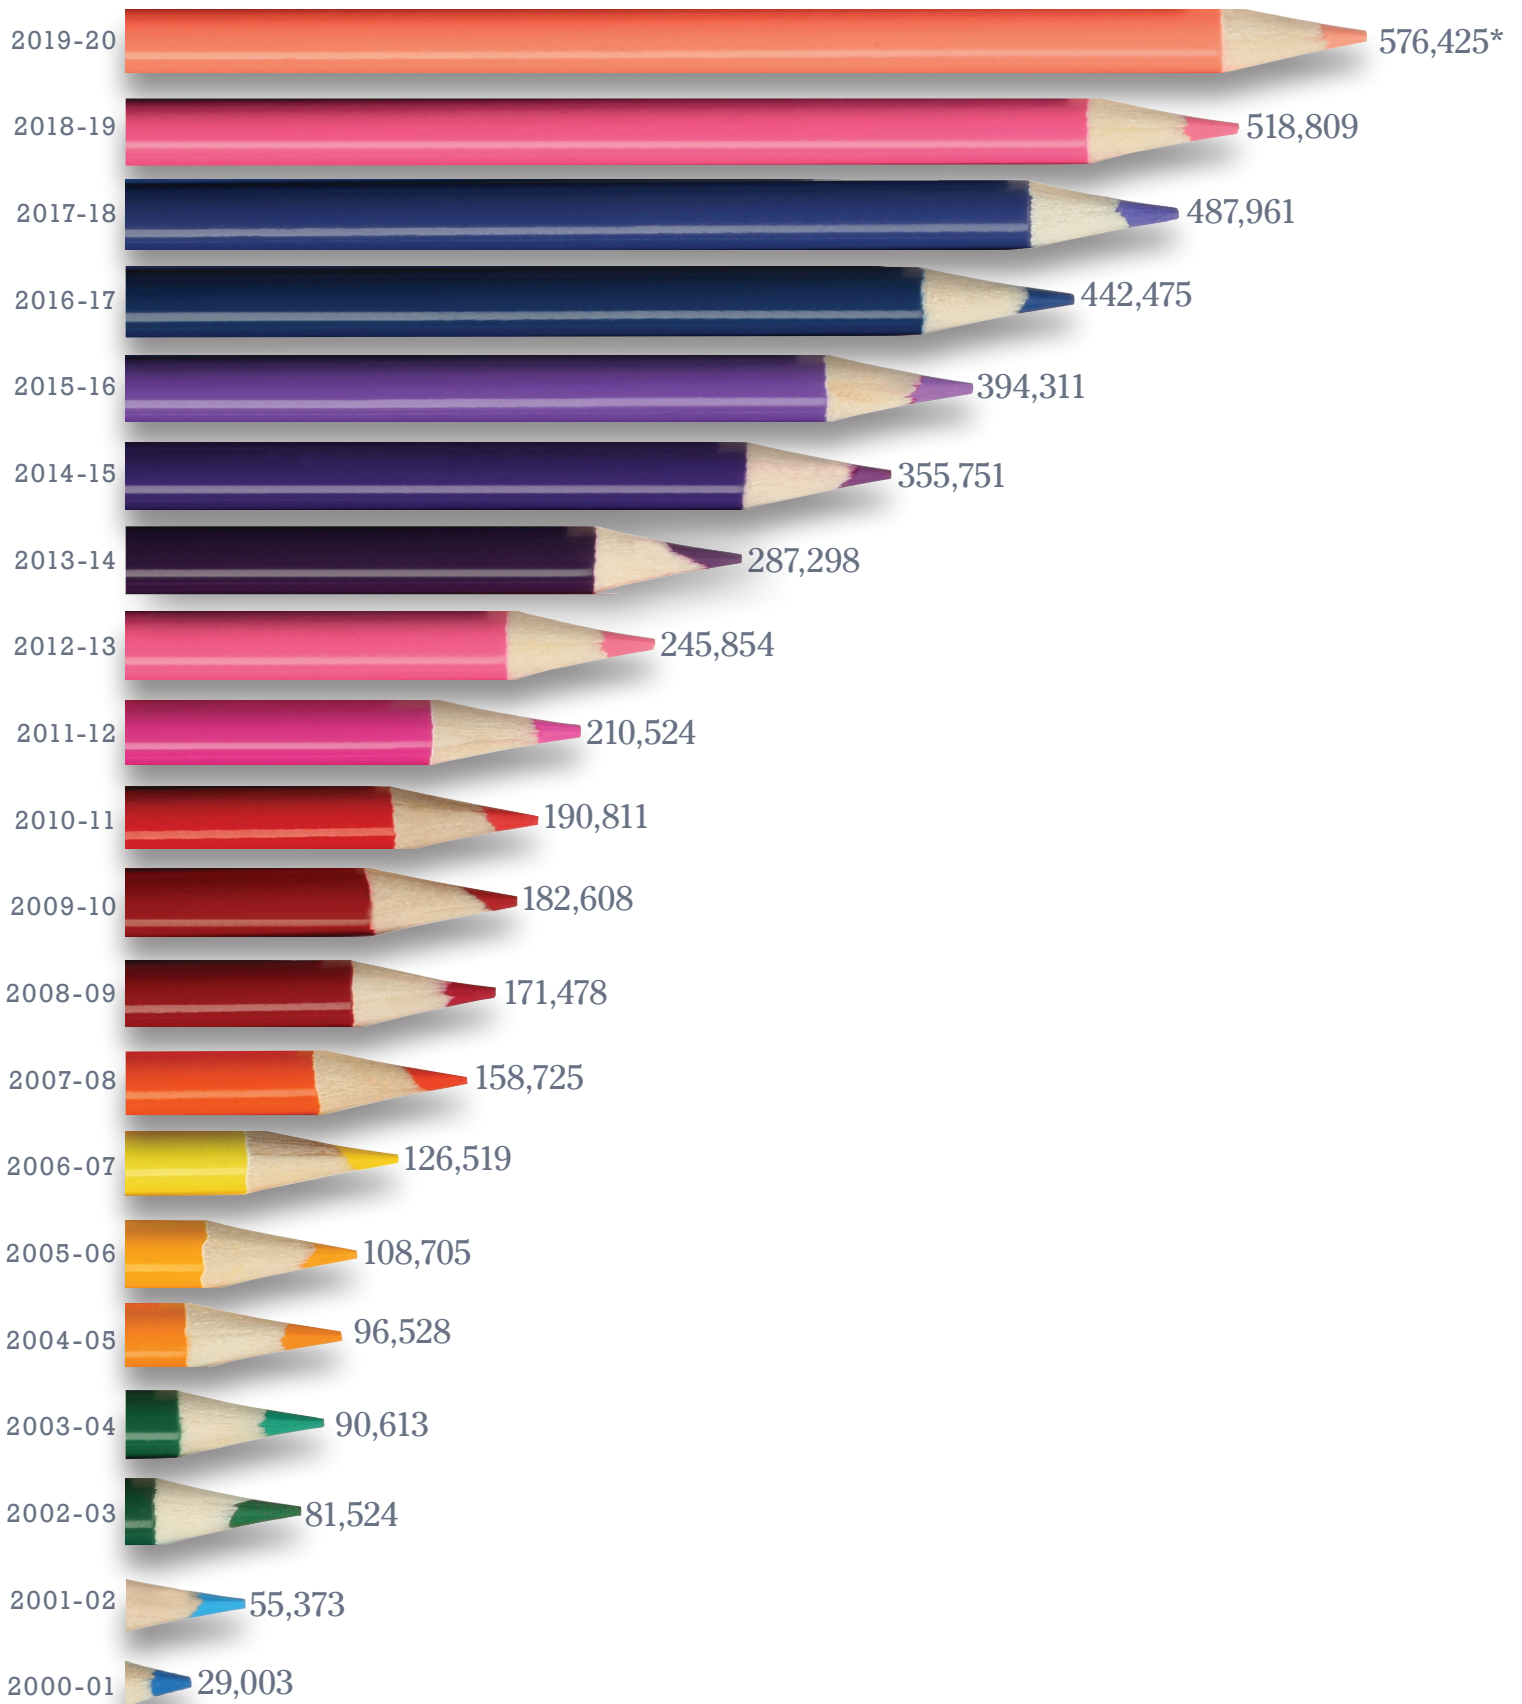

If it was your decision and you could select any type of K-12 school, **what type of school** would you select in order to obtain the best education for your child?

PROGRAM RANKINGS

Here are the program rankings for all tax credit scholarship, voucher, ESA, and special education programs that had student enrolled in the 2019-2020 school year. We hope these rankings will spur conversation about which policies create strong private school choice programs, encourage states to improve their existing programs, and celebrate some of our country's strongest programs. For an in-depth breakdown of each state's scores, see page 74.

- Student must be enrolled in a failing school (defined as the lowest-performing 6% of public schools annually on state assessments); once a student receives a scholarship, he or she remains eligible regardless of whether or not he or she remains zoned to attend a failing school
- After July 31 of each year, SGOs may award unaccounted scholarship funds to students whose family income does not exceed 185% of the federal poverty guidelines whether or not they are assigned to a failing school
- A renewing student’s family income can increase to up to 275% of the federal poverty guidelines (\$72,050 for a family of four in 2020-21)

SCHOLARSHIP GRANTING ORGANIZATION (SGO) REQUIREMENTS

- Use at least 95% of contributions for scholarships
- Conduct criminal background checks on all employees and board members
- Make scholarships portable to any qualifying school
- Meet state and local health and safety requirements
- Spend a portion of expenditures on scholarships for low-income students equal to the percentage of low-income students in the county where the SGO expends the majority of its scholarships
- Ensure that at least 75% of first-time scholarship recipients were not enrolled in a private school during the previous year
- Submit annually to the state:
 - Data on accepted contributions
 - Demographic data for students receiving scholarships
 - A financial audit performed by a certified public accountant
 - Policies and procedures used to determine scholarship eligibility
 - Verification that no SGO policy or procedure restricts parental choice
 - Verification of how priority is given to students zoned to attend a failing school
- Expend scholarship funds by the end of the academic year ending within the calendar year immediately following receipt of the donation
- May not enter into agreements with participating schools that restrict the schools to only accept scholarship students from a particular SGO and reject all other eligible students

SCHOOL REQUIREMENTS

- Comply with health and safety codes
- Conduct criminal background checks on employees
- Be accredited by state-recognized accrediting agency within three years
- Demonstrate financial viability if it is to receive \$50,000 or more in scholarships
- Annually administer the state achievement test or nationally recognized norm-referenced tests to scholarship students and provide test results to the state
- Provide graduation rates of scholarship students to the state
- Maintain website that describes the school, the instructional program of the school, and the tuition and mandatory fees charged by the school

PROGRAM RANKING DETAILS & METHODOLOGY

METHODOLOGY

This Guidebook gives a rating to every private school choice program in the country - except for tax rebate programs and programs without students enrolled in the 2019-2020 school year.

As you will see in the rubrics on the following pages, all of the scored programs are rated using criteria from three broad categories:

STUDENT ELIGIBILITY – All children should be in the learning environment that best meets their needs, especially lower-income students, who usually have the fewest options for high-quality schooling. Thus, we value broad eligibility but believe that students from low-income families should receive preference if there are caps on either funding or enrollment.

SCHOLARSHIP AND PROGRAM SIZE – High scholarship amounts are imperative to achieving equity with public school funding, creating real opportunities for families by covering a sizable portion of private school tuition, and allowing all eligible students to participate. Programs with higher scholarship amounts and greater growth over time received more points.

SCHOOL ACCOUNTABILITY – Private school choice programs should be high quality, transparent with their data, and accountable to both parents and taxpayers. Thus, programs score higher that have commonsense academic, administrative, and financial accountability requirements.

Additionally, tax credit scholarship and education savings account programs have their own add-on scoring categories that evaluate those programs on aspects unique to those program types:

TAX CREDIT SCHOLARSHIPS – Programs that have higher tax credit values, higher caps, and strong accountability and reporting requirements for scholarship granting organizations scored higher than those that do not.

EDUCATION SAVINGS ACCOUNTS – The country's one non-special education ESA program is scored based on the amount of financial accountability, practitioner certification, and whether the program rolls over extra funds for postsecondary education.

Less than 0.5% of 5- to 17-year-old students participate	0	2	0

* To prevent the growth numbers from being skewed by outliers, enrollment growth is not calculated until a program enrolls at least 500 students in a single year. This helps to ensure that programs that start out very small in their early years are not rewarded, while programs that enroll larger numbers of students in the first few years are not penalized. If a program does not reach 500 students by the second school year of implementation, it receives 0 points.

PRIVATE SCHOOL CHOICE STUDENT ELIGIBILITY

Which Students Participate in Private School Choice Programs?

Most of the time, private school choice programs serve students with particular educational needs or circumstances. Students who meet eligibility requirements for a school choice program can apply to receive funds to attend the private school of their choice or completely customize their education to meet their learning needs.

30 MEANS-TESTED PROGRAMS

Means-tested programs are designed to provide students from low-income families with quality educational options they may not otherwise have access to.

Means-preferenced programs give preference to students from low-income families.

ACCOUNTABILITY CHECK

Transparency and accountability are smart public policy and also provide educational choice advocates with readily available data and information to showcase program successes.

ACADEMIC ACCOUNTABILITY

results in transparency to parents, policymakers, taxpayers, and donors. Parents must have the information to choose high-quality schools that meet the needs of their children, while policymakers, taxpayers, and donors can use school data to measure the impact of private school choice programs on academic achievement and attainment.

ADMINISTRATIVE ACCOUNTABILITY

requires schools to meet health and safety regulations, and to conduct background checks on employees. All schools must comply with federal nondiscrimination requirements. For tax credit scholarship programs, scholarship granting organizations (SGOs) disclose donations and scholarship details, as well as conduct background checks of SGO operators.

FINANCIAL ACCOUNTABILITY

requires schools to file annual financial reports and demonstrate financial viability. In tax credit scholarship programs, financial accountability requires SGOs to demonstrate sound financial standing.

ABOUT US

AMERICAN FEDERATION
for Children
Growth Fund

MISSION

The American Federation for Children Growth Fund seeks to empower families, especially lower-income families, with the freedom to choose the best K-12 education for their children.

The American Federation for Children Growth Fund is a national educational choice leader, investing in states with the greatest potential for enacting or expanding high-quality, accountable school choice programs. We provide policy and program expertise, implement proven strategies, promote and defend school choice programs, and build local organizational infrastructure for long-term growth, impact, and sustainability. In collaboration with national and state allies, we work to create opportunities for systemic and sustainable educational reform that puts parents in charge, gives families expanded opportunities, and improves educational outcomes for all children.
